

WE NEED VOLUNTEERS!

FIRE FIGHTER

CANCER COHORT STUDY

The FFCCS is a research project that aims to better understand cancer prevention, diagnoses, progression, and treatment in subgroups of the firefighting workforce.

HOW CAN YOU HELP?

Our research team will be conducting two different types of focus group discussions:

- Baseline Cancer Survey Instrument Feedback Discussion**
- General Occupational Health and Safety and Cancer Concerns Focus**

Should you have any questions about the research study, please contact: Paola Louzado-Feliciano at 305-243-7148 or by email: pxl411@med.miami.edu.
